CAREER OBJECTIVE

- A passionate 3rd-year B.Tech student with a academic background and a problem-solving mindset. I have the ability to analyze challenges and the confidence to share innovative ideas. I am currently seeking an internship opportunity to learn, grow, and collaborate with an expert team of talented individuals.

PROJECTS

"Shop Zone: A Mern based cloth management system

📅 DEC 16 2024

- Developed a full-stack web application using MongoDB, Express.js, React, and Node.js (MERN Stack). Designed a user-friendly interface for managing clothing inventory, orders, and customers. Implemented CRUD operations for product management with real-time database updates. Integrated user authentication and secure payment gateway for seamless transactions. Deployed the application on AWS/GCP/Vercel/Heroku for scalability and accessibility.

LEADERSHIP EXTRACURRICULAR ACTIVITIES

- **Head, Digital Media IT Committee – Student Activity Council (SAC)** (2024-2025)
  - Leading the Digital Media IT Committee to enhance the institute's digital presence and communication.
  - Overseeing the creation and management of content for social media, college events,Photography and Handling social media.
  - Managing a team to develop and maintain technical solutions for campus-related digital activities.
- **Member, Student Activity Council (SAC) – Digital Media Committee** (2023-24)
  - Contributed to content creation, event promotions, and digital engagement strategies.
  - Assisted in organizing and executing digital campaigns for various college activities.
